

## **Brownfields 2020 Cleanup Grant Fact Sheet**

### **Brillion, WI**

### **EPA Brownfields Program**

EPA's Brownfields Program empowers states, communities, and other stakeholders to work together to prevent, assess, safely clean up, and sustainably reuse brownfields. A brownfield site is real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. The Small Business Liability Relief and Brownfields Revitalization Act of 2002, as amended by the Brownfields Utilization, Investment and Local Development Act of 2018, was passed to help states and communities around the country clean up and revitalize brownfield sites. Under this law, EPA provides financial assistance to eligible applicants through five competitive grant programs: Multipurpose Grants, Assessment Grants, Revolving Loan Fund Grants, Cleanup Grants, and Environmental Workforce Development and Job Training Grants. Additionally, funding support is provided to state and tribal response programs through a separate mechanism.

### **Cleanup Grant**

*\$500,000*

EPA has selected the City of Brillion for a Brownfields Cleanup Grant. Grant funds will be used to clean up the former Brillion Iron Works property located at 200 Park Avenue and 234 East Ryan Street. The now idle 145-acre site consists of 20 parcels and was used as a foundry and manufacturer of farm implements from the late 19th century until 2016. It is contaminated with hazardous substances, including polycyclic aromatic hydrocarbons, volatile organic compounds, and metals. Grant funds also will be used to support community involvement activities.
